Interior

COVERAGE

1 Litre

10-12 m²

APPLICATION

Cloth, brush
or spray

DRYING TIME

Minimum
30 minutes

TOOL CLEANING

White Spirit

Product use

Liberon Liquid Wax Black Bison is ideal for nourishing and protecting all types of wood. It is particularly suitable for large surfaces such as panelling, floors, doors, staircases and other large interior woodwork.

Liquid Black Bison Wax is well known for its quality and pleasant, distinctive aroma which means it has traditionally been used on antiques, but will also enhance the natural beauty of new wood whilst protecting it against dryness.

Preparation

Remove old waxes and dirt with Liberon Wax and Polish Remover if necessary. Ensure the surface is clean, dry and free from dust.

Application

Shake well before use. Apply Liquid Black Bison Wax sparingly with a cloth, brush or spray gun. Allow to become touch dry for a minimum of 30 minutes, then buff with a clean cotton cloth, or for a faster finish with a Liberon Drill Brush. Repeat the operation on new or very dry wood as it may require two or more coats. For a better quality finish apply thin coats of wax and build-up to the desired level of sheen, buffing between coats.

Important: Always test product in a spare or inconspicuous surface to check colour, compatibility and end result.

Cleaning and maintenance

Wipe over with a cloth or duster and re-wax as required when the surface looks dull and tired. Do not wash with water.

Precautions

- Not suitable for high water areas such as kitchens and bathrooms.

Colours: Clear, Neutral, Medium Oak, Dark Oak, Georgian Mahogany and Antique Pine.

Packaging

Liberon Liquid Wax Black Bison is available in 500 ml and 5 L containers.

Health and Safety

Flammable. May cause skin sensitisation by skin contact. Harmful to aquatic organisms, may cause long-term adverse effects in the aquatic environment. Harmful: may cause lung damage if swallowed. Repeated exposure may cause skin dryness or cracking. Keep out of the reach of children. Avoid contact with skin or eyes. Do not empty into drains. Wear suitable gloves. Use only in well ventilated areas. If swallowed, do not induce vomiting: seek medical advice immediately and show this container or label.
