USAGE

Interior

COVERAGE

Diluted 25-35
m² - 500 ml

APPLICATION

Cloth or mop

DRYING TIME

Minimum
30 minutes

TOOL CLEANING

Water

Liberon Wood Floor Reviver is ideal for reviving and conditioning varnished wooden and parquet floors to protect them against everyday wear and tear. It helps to hide scuff marks and scratches while producing a tough, durable and non-slip finish. Wood Floor Reviver puts an attractive satin to gloss finish onto the varnished surface in a simple one-step application.

Preparation

Ensure the floor is clean and dry and dust free.

Application

Shake well before use. Apply a thin coat of diluted Wood Floor Reviver (2 parts Wood Floor Reviver to 1 part water) evenly to the surface using a sponge, mop or floor cloth and allow to dry for a minimum of 30 minutes. On heavy traffic areas or badly worn surfaces apply a second coat once the first coat has dried thoroughly.

Cleaning and maintenance

Wash and dry the floor. Re-apply Wood Floor Reviver as required when the surface looks tired.

Health and Safety

Keep out of the reach of children. Do not empty into drains. Use only in well-ventilated areas. Do not allow to freeze. Contains triisobutyl phosphate. May produce an allergic reaction.

VOC information

EU limit value for Wood Floor Reviver CatA/I: 140 g/L (2007) / 140 g/L (2010). Wood Floor Reviver contains max 42 g/L VOC.

Packaging
