- Dries in 30 minutes

USAGE

Interior

COVERAGE

1 Litre

40-50m²

APPLICATION

Cloth or mop

DRYING

TIME

Minimum
30 minutes

TOOL CLEANING

Water

Liberon Laminate Reviver is ideal for restoring and protecting laminate and vinyl floors. It helps to hide scuffs and scratches while leaving a non-slip protective coating to reduce wear and tear. Also revives the lustre of the laminate and most types of vinyl flooring in a one-step application.

Preparation

Ensure the floor is clean and dry and dust free. If required, clean the surface with Liberon Laminate Clean and Seal.

Application

Shake well before use. Apply a thin coat of the Laminate Reviver evenly to the floor using a sponge, mop or floor cloth and allow to dry for a minimum of 30 minutes. On heavy traffic areas or badly worn surfaces apply a second coat once the first coat has dried thoroughly.

For a higher shine, apply further coats of Laminate Reviver as above.

Cleaning and maintenance

To ensure the longevity of your laminate clean regularly with Laminate Clean and Seal and refresh with Laminate Reviver when the surface looks tired.

Precautions

Ensure the Laminate Clean and Seal has dried completely before applying Laminate Reviver.

Health and Safety

Keep out of the reach of children. Do not empty into drains. Use only in well-ventilated areas. Do not allow to freeze. Contains triisobutyl phosphate. May produce an allergic reaction.

VOC information

EU limit value for Laminate Reviver: CatA/I: 140 g/L (2007) / 140 g/L (2010). Laminate Reviver contains max 42 g/L VOC.

Packaging

Laminate Reviver is available in 1L containers.
